To Whom It May Concern:

Ms Jenni Gillard

I write to strongly support Jenni Gillard in her work to promote lighting amongst up and coming professionals in the lighting industry.

I have known Jenni for more than 15 years, as a student, a lighting designer, and as an educator in Queensland. Jenni was one of the students in the first intake into our coursework Master of Lighting program at QUT in 2004, and was the first female to graduate from the program with the Masters qualification.

I have also had the good fortune to see many of Jenni's lighting design projects in the Brisbane area, particularly as a judge for the IESANZ (Qld branch) annual Lighting Design Award. Jenni has entered many of her projects in this competition over the years, and has deservedly won many awards for her work.

Finally I am indebted to Jenni for the teaching into the Lighting minor offered within QUT to undergraduate students. Jenni teaches half of the lighting design unit, concentrating on the creativity aspects of what constitutes good lighting and this is one of the most popular units in the program amongst the students. Jenni's experience and ability in this area makes her an ideal person to teach this to the next generation of lighting designers.

I am more than happy to endorse the work that Jenni proposes to do in the promotion of lighting amongst young people wishing to enter this exciting industry, and I hope that I can also support her in her work in this area.

Yours sincerely

A/Prof Ian Cowling
