To whom it may concern,

Re: St Brigid's Catholic Church, Brisbane, Australia

St Brigid's Catholic Church, Red Hill, is one of the significant and easily recognizable buildings in Brisbane. The Jubilee Catholic Parish engaged Jenni Gillard as the lead lighting designer for the external lighting project of the Church. She was responsible for and managed all aspects of the lighting solution. The project was successfully completed on time and within budget.

The completed project surpassed our expectations and our community appreciated the professionalism of Jenni Gillard who saw the project through to completion.

Yours faithfully,

Fr Peter Brannelly
Parish Priest
